Event title: Summer Overnight Camp

Event description:

At our camp, children will be able to relax outdoors surrounded by the Ocala National Forest, with its lakes, rivers, and unique natural springs. What could be better for a child's health and relaxation than nature and socializing with other kids? At camp, children forget about gadgets and video games. Relaxing in hammocks, evenings by the campfire, reading books at night, fishing, and other quiet activities will fill your child with energy and strength for the next school year period.

ENTERTAINMENT

Our camp offers many interesting activities for children. Counselors engage children in board and educational games, they participate in contests and relays, complete useful tasks, play on the playground, solve quests, jump on trampolines, swing on swings, socialize, or enthusiastically play team ball games. At the end of the day, there is an evening cinema where children can watch a movie or cartoons.

COMMUNICATION

In addition to the entertainment and recreational activities, children have many opportunities to make new friends and talk about various topics. They often bond over their shared love of nature, animals, science, or sports. In the large group, children help and take care of each other in their squad or team, learn about different character types, practice kind communication, and gain experience in dealing with complex or disputed situations.

FREE TIME

Each day, between meals and entertainment, children have free time for themselves, to sleep, make calls to their parents, or simply to relax. This is personal time for each child, when they can do whatever they like!

SPORTS

A lot of time at camp is dedicated to favorite sports. Children play soccer, volleyball, ping pong, basketball, and morning stretching exercises are also part of the program. The camp includes hiking in the

forest or swimming in the lake. There is also badminton, pickleball with rackets and a net.

ENTHUSIASMS AND CREATIVITY

Our camp offers a wide range of activities for creative development. We provide classes in drawing, sculpture, culinary workshops, chess games, origami, and LEGO construction. During this time, children not only develop their talents and skills but also enjoy socializing in a pleasant atmosphere while diving into their favorite hobbies.

EDUCATION AND WORK

During the evening cinema, children watch not only regular cartoons and films but also educational programs, participate in intellectual or musical quizzes, and solve exciting and educational quests. At the camp, children are encouraged when they help in the kitchen, clean the area, or complete important and useful tasks.
